DECISION IN U. S. CIRCUIT COURT BY JUDGE DEADY.

[illegible]

DEADY, J.

The complainants, Matthias Chapman, Aaron D. Klise, James [illegible], Lorenzo A. Scrapper[?] and John M. Chapman, allege in their amended complaint that they are citizens of the United States and that [illegible] and his fourteen defendants are [illegible] [illegible] citizens of the United States; that on February [illegible] 1876, the miners of Poorman and Jackass creeks district situate in Jackson county, State of Oregon, [illegible] established rules and regulations for the miners in said district, by which a claim was declared to be 100 yards square and every citizen of the United States allowed to hold one creek and one bank claim by location, and that said rules and regulations were duly recorded in said county on February 24, 1876; that on February [illegible], 1876 the complainants, [illegible] said rules and regulations and the act of Congress of May 10, 1872 "to promote the development of the mining resources of the United States," duly located and caused to be surveyed by the proper U. S. surveyor certain mineral lands particularly described by metes and bounds on said Poorman's creek, lying in township 38 south and [illegible] range west of the Willamette meridian [illegible] [illegible] chains in length and [illegible] chains in width; [illegible] on February 29, 1876, the complainants posted a notice of their claim [illegible] and caused a copy of the same to be recorded in said county, and a certified copy of such record [illegible] duly posted on said premises on April [illegible] 1876, of all which the defendants had due notice; that the legal title to the premises is in the United States, and the complainants are entitled to the possession of the same for the purpose of mining for the gold therein, and that such possessory right is of the value of $[illegible].

That the defendants on said February 28th and divers times between that time and the commencement of this suit—May 1, 1876—tres[passed] upon said premises by mining thereon and carrying away the gold from the same under a claim of right [illegible] to the depre[ci]ation of the value of said premises; that the defendants are prohibited by the act of Congress and the mining regulations aforesaid from mining said lands; that they are in[solvent] and of bad reputation for truth and veracity; that the complainants have no means of proving the amount of gold taken from the premises by these untruthful defendants except their own testimony, and that said defendants unless restrained by the order of the court will do irreparable damage to the premises.

The complainants therefore pray for an ac[count], the appointment of a receiver, a decree that the pretended claim of the defendants is illegal and void and that they be perpetually enjoined from trespassing upon said premises.

On June [illegible] a motion for a provisional in[junction] was argued and submitted by counsel upon the complaint.

The occupation and purchase of mineral lands of the United States is regulated by chapter [illegible] of title [illegible] of the R. S.—the same [being] a compilation of the prior existing acts of [illegible] 1866, July [illegible] 1870, May 10, 1872, and March [illegible] 1873 upon that subject. § 2319 of the R. S. declares that all valuable mineral deposits in lands belonging to the United States are free and open to exploration and purchase, and the lands in which they are [found] to occupation and purchase by citizens of the United States and those who have declared their intention to become such under regulations prescribed by law and according to the local customs or rules of miners in the several mining districts so far as the same are applicable and not inconsistent with the laws of the United States. § 2324 of the R. S. [illegible] authorizes the miners of each mining district to make rules not in conflict with the laws of the United States or the State governing the location, manner of recording, amount of work necessary to hold possession of a mining claim, subject to certain require[me]nts which are briefly these: (1) The loca[tion] must be marked on the ground so that its boundaries can be traced. (2) The record of the claim must contain the date of the lo[cation], the name or names of the locators, and such a description of the claim by refer[ence] to some natural object or permanent monument as will identify the same. (3) The [pe]rformance of $100 worth of work or im[pr]ovement on each claim located after May 10, 1872, yearly until the issuing of a patent therefor. But when claims are held in [common] [illegible] expenditure may be made upon any one claim, and upon the failure of any one of several co-owners to contribute his proportion of these expenditures his interest shall become the property of his co-owners who have made the required expenditures.

[illegible] laws of the State, Or. Code, §§ 5 and [illegible] provides that the county clerk shall record the [illegible] of [illegible] meeting, organ[illegible] mining district [illegible] [illegible] allows [illegible] [illegible] working of placer [illegible] [illegible] to the laws of the United States.

The mining laws of the district in question [illegible] each person [illegible] [illegible] claim [illegible] [illegible] [illegible] yards [illegible] [illegible] that [illegible] work [illegible] shall be done on each claim as [illegible] and lying on the right or west bank of Poorman creek. [illegible] as [illegible] [illegible] [illegible] [illegible] bank [illegible] or [illegible] Neither [illegible] [illegible] rather the contrary. [illegible] [illegible] for the mining laws [illegible] [illegible] [illegible] [illegible] Where parties undertake [illegible] [illegible] the aid of a court of equity even if the alleged trespassers are Chinamen and not expressly authorized [illegible] [illegible] enter mining land, they must bring them[selves] within the law authorizing the location [illegible] [illegible] with its terms.

In this case it being apparent that the land located includes more than one claim to each locator and complainant, while the local law only allows a person to locate one claim, except where one is a creek and the other a bank claim, there ought to have been a distinct alle[gation] in the complaint to the effect that the premises comprised an equal number of [illegible] claims. And if there is not other[wise] enough in the complaint to enable the court to ascertain this fact the location must be treated as an illegal one and the mo[tion] for an injunction denied. But it is mani[fest] from the description of the premises that this location is equally composed of creek and bank claims and therefore may contain two to each locator. A creek claim is a tract 100 yards square one side of which abuts on the creek or rather extends to the middle thread of it, while a bank claim is a tract of the same size lying back of and abutting upon a creek claim. This being so, all the land in this location between the creek and a line parallel thereto and 100 yards distant there[from] is creek land, while that lying west of such line is bank land.

The complainants being each entitled to locate a creek and bank claim, together they might have included a tract on the creek 200 yards wide and 500 yards long. As it is they have only taken about 3,000 yards, or 93 claims instead of the 10,000 yards, or 10 claims which the law or its wisdom allowed them.

For this act of self denial the heathen Chinee, who appear to have no rights on Poorman creek that a miner is bound to respect, and who had probably long ago this ground and long worked it as their own, are doubtless duly thankful. Yet to compare small things with great, if at some distant day the moral of this predatory transaction should be called in question the defendants will hardly have cause to exclaim with Lord Clive when charged in the House of Commons with helping himself to the treasury of Bengal after the signal victory of Plassey—"I am astonished at my own moderation."

On the argument of the motion it was also objected to the location that parties could not locate placer claims jointly. But I find noth[ing] in the law or regulations or the nature of things to support this proposition. On the contrary § 2324 of the R. S. makes express mention of "co-owners" of mining locations without reference to the fact of whether they are upon "placers" or rock in place, and pro[vi]des for forfeiting the interest of any of such co-owners who may fail to contribute his share of the expenditures required by law, while § 2330 expressly provides for the joint entry and patent of contiguous placer claims owned by two or more persons, which neces[sarily] implies that they may be located and occupied jointly before such purchase.

It is also insisted that the complainants must first obtain possession of the premises by an action at law before a court of equity will interfere to restrain the defendants from committing the threatened trespasses.

The remedy by injunction was once con[fined] to waste or cases of trespass between parties who were privies in title, such as land[lord] and tenant, mortgagor and mortgagee, tenant of the particular estate and remainder man, and in those cases the complainant was of course not in possession. But the distinc[tion] between the trespass technically called waste and the ordinary trespass between par[ties] who are strangers or claiming adversely to one another has been gradually disregarded by courts of equity until it cannot now be said to exist. Wherever a trespass is attended with irreparable mischief or a multiplicity of suits or vexatious litigation, the remedy by injunction will be applied the same as if it were a technical waste. Story's Eq. J. §§ 918, 928; Ad. Eq. 109. An injunction is now allowed in all cases of trespass upon mines upon the ground that the acts complained of are or may be an irreparable damage to this particular species of property. Id. § 916; Livingston v. Livingston, 6 John. Ch. 4[illegible]; Merced Min[ing] Co. v. Fremont, 7 Cal. 329. And this doctrine is particularly applicable to the case of a continued trespass upon a placer gold mine, the value of which consists wholly of auriferous deposits that may be worked out and removed without leaving any evidence of their quantity or value upon which to base an estimate or account, as in the case of coal, stone and other minerals not precious. If then the complainants by their location have acquired a right to possess the premises and appropriate the minerals contained there[in], the defendants can have no such right, and the exercise of it by them is an irrepar[able] injury to the interest of the complain[ants], and the latter are entitled to the injunc[tion] asked for. Prior to the passage of the acts aforesaid concerning the mineral lands, strictly speaking all persons who occupied them for the purpose of mining were naked trespassers—at least as against the United States. As between the first occupants and third persons from the necessity and conve[nience] of the case the courts held that the former were not tres[passers] and were entitled to the protection of the law as persons in the posses[sion] of portions of the public domain with the assent of the owner. Merced Mining Co. vs. Fremont, supra; 2[illegible] People vs. Shearer, 3[illegible] Cal. 6[illegible]. But under the min[ing] laws of the United States now in force the locator of a mining claim as to the right of the possession of the premises and to ap[pro]priate the minerals therein becomes [illegible] the assignee of the United States so long as the law remains in force and he complies with [illegible] [illegible] Congress [illegible] [illegible] the law [illegible] [illegible] to appropriate to his own use the minerals [illegible] is full and [illegible] [illegible] to purchase the land or obtain a patent for it. [illegible] [illegible] [illegible] [illegible] [illegible] the [illegible] taken [illegible] [illegible] claims [illegible] [illegible] As the law stands [illegible] [illegible] the [illegible] [illegible] [illegible] [illegible] [illegible]

[illegible] lands containing mineral deposits [illegible] [illegible] presumption as against [illegible] location [illegible] [illegible] included therein [illegible] occupying [illegible] lands with the consent of the United States. As has been said, a locator under these acts is, [illegible] the possession of the soil [illegible] appropriation of the minerals therein for the time being, is the assignee of the United States, and as against an unqualified occupant of the premises he is entitled to the same remedies that his assignor would be entitled to. Nominally these acts discriminate against the alien generally, but [illegible] against the [illegible] Chinaman [illegible] aliens, including the Mongolian, except the Mon[golian] are permitted to become naturalized and therefore qualified to [illegible] occupy mining lands under them.

Article VI of the treaty with China of July 28, 1868 (16 Stat. Treat. 1[illegible]) provides that citizens and subjects of the two nations shall respectively enjoy the same privileges, immunities or exemptions in respect to travel or residence within the country of the other as may there be enjoyed by the citizens or subjects of the most favored nation.

The right to reside in the country with the same privileges as the subjects of Great Britain or France implies the right to follow any lawful calling or pursuit which is open to the subjects of these powers. Therefore the pro[visions] in the mining regulations of Poorman creek, which in effect forbid Chinamen from working in a mining claim for themselves or others, as well as the clause of the State constitution *supra* to the same effect, seem to be in direct conflict with the [illegible] of the treaty, [illegible] [illegible] [illegible] cally the latter has always been a dead letter. Both it and the similar prohibition in relation to [illegible] [illegible] were generally regarded at the time of the forma[tion] of the State constitution as a mere piece of *brutum fulmen* intended to quiet the fears and placate the prejudices of a certain class of voters who were supposed to [illegible] an dread of being overslaughed by an influx of these black and yellow people.

But whether the treaty reaches the point involved in this case is a question that has not been argued by counsel, and therefore will not now be passed upon.

Assuming that it does not, I am constrained to hold that the complainants by their loca[tion] have for the time being become entitled to the possession of the premises and the right to appropriate the minerals therein to their own use, and that therefore the defendants, although in the peaceable possession of the claim when located by the complainants, are now in law trespassers upon the legal rights of the latter. Let an injunction issue com[manding] defendants to desist from working the premises until the further order of this Court.

B. F. Dowell and *Addison C. Gibbs* for com[plainants].

Walter W. Thayer for defendants.

THURSDAY MORNING, AUGUST 3, 1876.

WHAT THIS CONGRESS HAS DONE.

The long session of Congress this time, has been unusually long and accomplished as nearly nothing as it has been possible to accomplish and still maintain the appearance of attending to the public business. The House has investigated Republicans and whitewashed Democrats to the amount of some hundreds of thousands of dollars, for the purpose of manufacturing sentiment for the Presidential election, and the Senate has sat still and waited for the House to get through with its political manœuvering and signify a disposition to go about the business for which Congressmen are elected. The public money has flowed like water to carry on partisan investigations, at the instigation and under the manipulation of a House chosen on the issue of retrenchment and reform and which affects the utmost solicitude about the public expenditures. The army must be reduced, the Indian bureau put on half-rations, the salaries of professors at the military and naval academies cut down, and the salaries of poor clerks in the public offices razeed in order to save the money of the dear people; but a hundred thousand here and fifty thousand there to push an investigation for campaign purposes, or smother an investigation that might affect the campaign on the wrong side, are trifles over which the House would not hesitate a moment. Meanwhile, in the matter of useful legislation nothing has been done and scarcely anything proposed. The Democratic leaders have clamored for a readjustment of the currency, but they have passed no measure on that subject; they have rent the air with just denunciations of the corruption that prevails in the administrative departments of the government but they have offered nothing in the way of correction or prevention; they have raved about an unequal and unjust tariff law, but they have put no law through that branch of Congress which they control rearranging the tariff; they have declared the Indian Bureau to be a gigantic and systematic fraud, but they have presented no plan to correct its abuses. In a word, they have found no branch of the public service that did not, according to their ideas, need a thorough overhauling and reorganization, and they have proposed no overhauling or reorganization of any single branch. This is a true statement of the position of the House of Representatives and the party for which it is mouthpiece.

In the Senate the time has been largely taken up with the Belknap trial, which has come to naught, and with watching the skirmishing in the House. There has been some show of a disposition to do the work that belonged to Congress, and a good deal of useless or harmful shystering on the subject of Southern elections. Beyond that little has been accomplished. When the work of this long session of Congress is fairly summed up it will be found there is as little in it that any one would care to remember as was ever recorded during one session.

A MAN WHO STANDS BY HIS CONTRACTS.

Everybody likes to see a man stick to his bargains. There is nothing particularly chivalrous about making a bad bargain, but there is in standing by it when it is one that could as well be broken as kept, so far as the power to enforce it by legal measures is concerned. That is the sort of bargain made by Mr. Goode, of West Virginia, who occupies a seat in the National House of Representatives. Mr. Goode has been all along regarded as one of the most reliable friends of rag-money. He is a member of the committee having in charge the financial policy of the House, and it was understood until within a few days past that the committee would report a bill repealing the resumption clause of the currency law of 1875. But his seat was contested by Mr. Platt, and it was generally conceded, even by the Democrats, that Platt was entitled to it. It is said Mr. Morrison, the leader of the House, had declared his purpose to vote for the admission of Platt whenever the question could be reached. But it was rumored a few days ago that a bargain had been entered into, in the interest of Tilden, by which Goode was to be kept in his seat, in consideration of which he was to absent himself from the meetings of the committee, so as to make it impossible to get a report recommending the repeal of the resumption provision, his absence leaving the committee equally divided between the hard money advocates and the supporters of the rag baby. This was a hard bargain on Mr. Goode's side. It is not a very desirable thing to be a member of Congress, under any circumstances, and to be a member who is regarded as devoid of self-respect, would be a position which no honorable man would wish to occupy. Such must be the position of any member who is known to have entered into an arrangement to sneak out of sight in order to avoid voting for a measure to which he had pledged his support. So we say Mr. Goode's bargain is a hard one. But he stands up to it like a man. He does not flinch. He was to absent himself from the committee, and he does absent himself accordingly from every session. In the House he is at home and active. But he puts in no appearance at the committee room. The newspapers talk of the corrupt bargain, and it becomes a subject of common conversation on the streets and in the galleries and in the lobby; still Mr. Goode, through evil report and good report—if good report there can be about such a matter—stands to his bargain and dodges the committee on finance, and still the repeal of the resumption act is not reported. Mr. Hendricks and his admirers may growl, and the soft-money people in general may weep and curse in turns, over the desertion of the member who made their majority on the committee; but Mr. Goode remains firm as a rock. He has passed his word to the Tilden side of the united Democratic household, and he will make it good, though all the Hendricks' side of the united Democracy gnash upon him with their teeth. The anathemas of a betrayed and outraged constituency are hard to bear, and the loss of one's reputation as an honorable man, is a trial to which no one could wish to be subjected; but all these considerations are insufficient to break the purpose of Mr. Goode to fulfill his engagement, and he goes straight forward in face of all opposition, and performs his part of the contract. Let it not be forgotten too that he does this after the other parties have fully performed their part, and his position is entirely secure, so that he could snap his fingers in defiance if he chose. Mr. Goode is a hero, and we trust his chivalrous adherence to the terms of a bargain by which he sacrifices for Tilden that which is dearer than life to most gentlemen will be suitably recognized and rewarded when the incarnation of reform and honest government becomes President of this glorious Republic.

Those hostile Sioux and Cheyennes are a very accommodating sort of public enemy. They furnish our people what information they can concerning the massacre of the soldiers. That is the medium through which the particulars of the ambush and slaughter of Custer and his men, as telegraphed yesterday, were obtained. The Indians who imparted this valuable information are some of those who participated in the fight, "and who arrived at the agency" a day or two ago. No doubt their statements are entirely reliable, as they appear to be on the most amicable terms with the agency people. Probably they came in to get ammunition, or provisions, or both. It is a very pleasant feature of this war that the butchers of Custer have such easy relations with the agencies that they do not fear to "arrive" there and detail the horrors of their merciless warfare. The announcement that about 1,000 or 1,200 Cheyennes have left the Red Cloud Agency under such circumstances that admit of a fair inference that they have gone to join the hostile camp, shows how perfect is the understanding on all hands that the murder of a few hundred brave men by the savages are not to be allowed to interrupt the friendship that exists between them and the whites, "on the side."

Still the country waits, with an interest that has degenerated into mere curiosity, for the appearance of the promised letter of acceptance from Tilden and Hendricks. Some enterprising newspaper correspondents claim to have gotten, by means which are not stated, the substance of what the oracles will say; but that is not the best possible evidence on the subject. The bargain in the Platt-Goode case may have enabled the candidates to commence preparation of their letters, and possibly the newspaper people have attained surreptitiously a general idea of the contents of the documents; but it would be a safe wager that no one, unless it be Baldwin, could tell just what they will contain till after the adjournment of Congress.

At last the Senate has surrendered to the House and the House has surrendered to the Senate, and the House recedes a short distance and then the Senate recedes an equal distance, and then they appoint another conference committee, and then they both recede again, till at last they get a bill into a condition in which both Senate and House are thoroughly dissatisfied with it; and then they pass it. By this means the various appropriation bills are getting through in ship-shape—that is, in a shape that pleases nobody—and Congress will soon be ready to adjourn, which it will probably do about next Monday or Tuesday.

MR. A. W. PIPER, WHO KEEPS THE "BOCA Beer" charges me to be a swindler. He claims that I sell any kind of beer for "Boca." I obtained through my agent a quantity of Boca beer in order to satisfy some of my customers. The supply was exhausted before the second invoice arrived. Parties come in and ask for *Bock* beer which I keep at times, and as such sell it. I am asked for Bock beer by persons who want the "Boca," and if I give bock beer it is the fault of the customer. I do not sell any beer for Boca other than that which I buy for such from any San Francisco agent. The only beer I keep is from the Steilacoom brewery, and the fact that my business has increased largely in the last few months is evidence that it is the most popular beer for sale in the city. To those who desire "Boca beer" I would say that I have a supply on the "John L. Stephens," and will tap it when delivered at my saloon.

THURSDAY MORNING, AUGUST 3, 1876.

THE CITY.

CHANGE OF BASE.—Several carpenters are engaged in making general alterations in a portion of the court house—that occupied by the several officers connected with the affairs of the county. The room, which has for so many years been occupied by the county clerk, is being improved in appearance and arranged so as to be suitable for a court room. Hereafter it will be used by the county judge and commissioners as a court room. The room used for holding county court, and also the adjoining one occupied by the county treasurer, is being overhauled and the furniture—desks, tables and cases—will be moved there from the clerk's office. The two rooms will, when ready for use, be occupied by the clerk. The treasurer will move across the hall and hereafter occupy the room formerly used by the deputy clerk who had charge of the records and business connected with the State circuit court. These changes will be mutually advantageous and result in convenience to both the public and the officials. The old clerk's office is well adapted to the purpose of a county court room, and the change of quarters by the clerk will enable that official to consolidate the several departments of his office into two rooms—adjoining each other—so that one person can run the office temporarily during the absence of the clerk and his assistant. The sheriff, assessor and surveyor's offices remain unchanged.

FATAL ACCIDENT.—Monday last an accident occurred beyond Kalama, resulting in the death of Mr. Thomas Aked, an engineer on a train of the Northern Pacific Railroad Company. For some time past the railroad company have had a force of men at Carroll's, blasting and removing the rock to be used in ballasting and leveling up the road. The train had arrived for a load just as a blast was about to be set off. All hands were ordered to get out of the way, and the engineer backed back some distance and stood on one of the flat cars; when the explosion occurred earth and stone were sent flying through the air with great velocity, one of the latter weighing two or three pounds, struck the engineer in the left side just below the heart, producing internal injuries that resulted in his death at an early hour Tuesday morning. Deceased was a native of England and born at Pocklington, East York. He was a machinist by trade, but performed the duties of an engineer when his services were required. He had been in the employ of the N. P. R. R. for a long time, and was respected by all who knew him. Sacramento, Cal., and Centralia, Ill., papers please copy.

"CITY OF SPARTA."—The ship City of Sparta has taken part of her cargo on board and will likely go down the river to day to [illegible]on. We believe this will be the most valuable cargo that ever left Oregon, consisting of wheat, flour and salmon, valued at [illegible],000. Captain McDonald expects to make a quick passage home. In the City of Sparta three years ago, he made it in 105 days. The City of Sparta is a much faster vessel and [illegible]. It is with regret that the citizens of our city part with the officers and crew of this ship. In this port they have made every [illegible] by their courtesy [illegible], and we wish them a speedy and safe voyage. We will miss their [illegible] calls and always think of them as jolly good fellows."

SMALL-POX.—The steamer John L. Stephens arrived at this port last evening [illegible], was placed in quarantine and now lies at anchor opposite Weidler's mill. A man who is a passenger on the steamer is said to have the smallpox, and by order of the health officer the [illegible] was quarantined. This morning at an early hour the patient will be conveyed to the pest house, where he will be provided for. The vessel will then be fumigated thoroughly and the ship will be permitted to come up to the dock and discharge her passengers and freight. Every possible precaution will be taken by the officers to prevent the spread of the infectious disorder, and no unnecessary alarm need be entertained.

A BOLD CASE OF KIDNAPPING.—The Olympia Courier of yesterday says: On Thursday of last week Mrs. Maxwell brought a little girl [illegible] years of age, to this city [illegible] were subsequently [illegible] foot of Main street [illegible] the daughter of Smith [illegible] last [illegible] they took a carriage Monday night for a ride into the country. [illegible] evening Mr. [illegible], of Portland, came to this city on the [illegible] searching for his little daughter, the girl above mentioned—who had been enticed from home without his knowledge. He procured the necessary papers and took steps for getting possession of his daughter.

NUMBER OF MESSAGES.—During the month [illegible] 4,198 messages have been sent from the office of the Western Union Telegraph Company in this city. Thirteen hundred [illegible] have been received at the office during the period. These messages have all been paid for at the usual rates charged for [illegible]. In addition, 111 messages have been sent and 98 received on which no charges were made by the company, making the total number of dispatches sent during the month, [illegible], number received, 1,399. The above is [illegible] of business done at the Portland office under the "regular through business," [illegible] daily dispatches published in the [illegible].

VIEWS OF THE FLOOD.—The New York Daily Graphic of July 21st, contains four views of the flood, taken by Messrs. Buchtel & Stolte, photographers, from several points in Portland. The photographic views are illustrated by that journal in splendid style, and the streets and buildings can be recognized and located at a glance. The same paper contains an account of the flood, damage [illegible] resulting, etc., written by the [illegible] correspondent in this city.

CLUB ORGANIZED.—At a meeting of citizens of Portland held at the armory of the Washington Guard on Wednesday evening, [illegible] 2, 1876, a rifle club was organized, to be known as the Portland American Rifle Club, and the following officers elected: President, [illegible]; vice-president, H. Cooke; secretary, J. Sutherland; treasurer, George C. [illegible]. The meeting adjourned to meet, to [illegible], &c., on Friday evening next at the same place.

THE CIRCUS.—A very small attendance at the circus last night. Having had a [illegible] such performance during Centennial year it was to be anticipated. The show is [illegible] and will please for a brief period. It goes to Oregon City this evening, thence to Salem and to California. We have found the managers clever gentlemen and they give a good programme whether well patronized or not.

POLICE COURT NOTES.

John Ellmore, charged with assault and battery; fined $5 and costs.

Ah Lang, charged with assault and battery on the person of Lung Tai; discharged.

John Doe and Richard Roe; charged with being disorderly by engaging in a fight on a saloon. After a hearing Doe was fined $10 and Roe discharged.

BRIEF NOTES.

The circus has gone southward.

What about another yacht or scull race.

When are we to have music in the plaza.

Large Eastern delayed paper mails the past three days.

Save one dollar per 1,000 feet by paying your gas bill to-day.

The "top and bottom" gamesters it is said have arrived. Look "oud" for them.

Machinery is now being placed in the hull of Capts. Holman and Gilman's new tug.

Kafka's junk store was entered during Tuesday night and a number of articles stolen. No clue.

Yesterday, three years ago, was the "terrible holocaust," or in other words, the great August fire.

The game law is up for the present season, and hunters are making havoc of the feathered tribe.

Dr. R. B. Wilson is having the grounds surrounding his residence raised to the level of Fourth street.

A great number of the ornamental shade trees which were killed by the high water, are being cut down.

Next Saturday there will be a trotting match over the East Portland race course between Parrott and Mystery.

The steamer John L. Stephens arrived here last evening from San Francisco with a full freight and a large number of passengers.

Mr. W. S. Caldwell, auditor and clerk, while coming down street yesterday, met with a fall, which fortunately did not result in injury to that gentleman.

Wm. Tennant, the well known horse trainer of this city, has leased the horse Tom Merry until after the next State Fair, and under his judicious training it is very probable that he will retrieve his reputation for speed.

A correspondent, writing from Milton under date of 28th ult., says: "We had a terrible rain storm yesterday, which retarded the progress of harvest somewhat. Cow creek was swimming in about one hour from the time it began to rain."

Of eight thousand one hundred and twenty-nine publications in the United States, only 361 are not represented in Rowell's newspaper exhibition at the Centennial. Three of these are credited to Oregon—one, the Star of the West, being dead.

MILITARY NOTES.

Gen. Howard will not return from Walla Walla until probably Tuesday of next week.

Surgeon J. J. Milhau has tendered his resignation, which will take effect on the 1st of October, 1876.

Maj. W. H. Bell is now on an inspection tour at Fort Wrangel, and will not return to this city until the next trip of the steamer California.

Gen. Tompkins, formerly chief quartermaster of the department of Alaska, has been relieved from duty at Louisville, Ky., and ordered to await orders.

Leave of absence for one month, with permission to leave the limits of his department and to apply to division headquarters for an extension for one month, and to the adjutant general of the army for a further extension for one month, is granted 2d Lieut. Willis Wittich, 21st Infantry, Fort Klamath, Oregon.

The chief commissary of subsistence is authorized to purchase, in open market at lowest obtainable rates, 5 tons hay, 4,950 pounds potatoes and 1,120 pounds onions, for shipment to the post of Sitka, Alaska; also 4,000 pounds hay to subsist fifteen head beef cattle delivered under contract en route to the post of Sitka.

The chief commissary of subsistence is authorized to purchase, in open market at lowest obtainable rates, 5 tons hay, 6,000 pounds barley, 2,000 pounds bran, 800 pounds potatoes, 100 pounds onions and 8 mutton sheep, for shipment to Fort Wrangel, Alaska; also 800 pounds hay to subsist the sheep en route to Fort Wrangel.

A board of officers has been appointed, by order of the War Department, to examine Mr. Guy Howard, son of Gen. Howard, who has recently received the appointment of second lieutenant. The duty of the board is to examine the applicant as to his physical, mental and moral qualifications to fill the position, and to report the result of the examination to the department. The board is composed of the following officers: Gen. Alfred Sully, colonel of the 21st Infantry, stationed at Fort Vancouver; Surgeon E. I. Bailey, Medical Director of this department; Capt. John A. Kress, of the ordnance department at Vancouver, and Maj. W. F. Spurgeon, captain 21st Infantry. The time has not yet been designated when the board will meet.

TELEGRAPH MATTERS.

The Astoria line is O. K.

Yesterday the steamer was telegraphed from Astoria for the first time since the completion of the new line.

Mr. Thompson is engaged in overhauling and repairing the line between Victoria and Seattle. He is coming from the former toward the latter point.

Mr. J. A. Crouch, general repairer for the Western Union Telegraph Company, returned to the city last evening, after having overhauled the lines between this city and Roseburg.

Astoria is jubilant over the new line. Two offices have been established in that enterprising town—one at the hotel for the convenience of the guests, and one by the company for the transaction of general business.

Mr. W. J. Wallis, one of the operators in the W. U. T. Co.'s office in this city, has returned to his post of duty after a week's sojourn at Seattle. Our jovial friend must have feasted on clams and fish, judging from his improved appearance.

A short time since the saw mill at Comstock was moved about six miles further south along the line of railroad, in order to be more convenient to the timber, which had been cut down for several miles around. The telegraph office, however, was allowed to remain at the old site until a few days ago, when Mr. Crouch removed the office to where the mill is at present in operation.

READ IT.

A correspondent signing himself "Montrose" sends us the following note:

It is now about a month since three human beings met instant death in a cesspool in this city. During that month your paper mentioned another death under similar circumstances, in another part of the State. The time which elapses before grappling irons can be obtained is generally sufficient to cause death, and that beyond the power of resuscitation. But let it be known as widely as possible, that if instantly five, six or more buckets of water are poured in, valuable lives may be saved. The oxygen of the water, together with the opening which is made in the poisonous acid, continued until the bodies can be raised, has proved the means of restoration. By inserting this, in the cause of humanity, you will oblige.

BUSINESS NOTICES.

Mr. Alfred Barstch, the popular piano and organ builder, announces to the public that he has removed his shop two doors north of his old place of business, and that he is now prepared to do all kinds of work in his line in a thoroughly workmanlike and satisfactory manner. He has had much experience in his business and guarantees to give satisfaction.

Next to the proposed excursion to Oysterville, a visit to Fishel & Roberts is the best thing for any one who desires to get the worth of his coin. Just try it and be convinced.

Save the money you intend putting out for a tour to the coast, and invest it, not in stocks, but in one of those elegant suits just opened at Beck & Waldman's. They are really nobby.

COMMON COUNCIL.

REGULAR MEETING, AUGUST 2, 1876.

A regular meeting of the Common Council was held last evening at the chamber.

His Honor Mayor J. A. Chapman in the chair, and W. S. Caldwell auditor and clerk, and Chief Lappeus in attendance.

Members Present—Andrus, Catlin, Corbett, Harrington, Landbert, Stemme.

Minutes of the last regular meeting read and approved.

PETITIONS.

From R. Williams asking permission to allow his building on the north side of A street, between Fourth and Fifth, to remain for the present, referred to the committee on streets and public property.

From Mrs. Schoppe, asking to have the sum of $9 refunded, as she had paid the city taxes twice on a certain piece of property under a misapprehension; referred to the committee on ways and means.

From L. Brooke and others, asking for the improvement of Pine street, between First and Second, by macadamizing; referred to the committee on streets and public property,

From W. K. Smith and others, asking permission to construct a sidewalk in front of block No. 74—Front and Salmon streets; referred to the committee on landings and wharves.

REPORT.

From the committee on streets and public property to whom was referred the petition of the German Rifle Club, asking for permission to use the city park as place which to practice marksmanship. Committee reported favorably to the petitioners, which was adopted.

[Councilman Stephens appeared and took his seat.]

A report was read from D. W. Taylor, city surveyor, in relation to the widening of Second street from Madison to A street—five feet on each side—which was referred to the committee on streets and public property.

CLAIMS.

The following claims against the city were read and ordered paid: R. Hendrie, $243 17; D. W. Taylor, $150; W. T. Besser, $43 50; G. Cogswell, $45; Chas. Lawrence, $64; T. A. Davis & Co., $59 72; J. H. Butler, $20; Portland Gas Co., $22 10; Police Commissioners, $18; Daniel Halpruner, $116 15; B. F. Smith, $2 25; Gleason & Manning, $—; H. W. Monnastes, $3; L. C. Ellison, $60; N. Vestig, $20; A. Hamilton, $86 30.

ORDINANCES.

From the committee on streets and public property: An ordinance adopting the report of the city surveyor in the matter of the widening of Second street from Madison to A; read first and second time and referred to the committee on streets and public property.

From same committee: An ordinance declaring the probable cost of improving that part of Yamhill street lying between First and Fourth; read three times and passed.

From same committee: An ordinance making an appropriation for the improvement of Yamhill street; read three times and passed.

From the same committee: An ordinance declaring the probable cost of improving that part of Morrison street between Second and Fifth; read three times and passed.

From the same committee: An ordinance making an appropriation for the improvement of Morrison street between Second and Fifth; read three times and passed.

RESOLUTIONS.

The following resolution was read and adopted:

Resolved, That the Auditor & Clerk give notice as required by the charter, that the Common Council propose to improve the following streets by McAdamizing full width of roadway: N. Front street from the center of C street to the south line of F street; E street from the west line of N. Front to the center line of N. Second; C street from the west line of N. Front to the east side of N. Fourth; D street from the west side of N. Front to the E. side of N. Fourth; D street from the west side of N. Fourth to east line of N. E. Park street, by McAdamizing 16 feet in width, with full intersections; B street from E side of N Fifth to center of N. W. Park street, by McAdamizing 16 feet in width with full intersections.

Councilman Catlin offered a resolution to the effect that when Council adjourns it should adjourn to meet next Friday evening, which was adopted.

AUTHORIZATIONS.

The following authorizations were made: That the committee on fire and water expend a sum of money not exceeding $45 for planking the cistern at the intersection of Jefferson and Seventh streets; that the committee on streets and public property expend a sum not exceeding $30 to erect a lamp at the corner of North Thirteenth and G streets.

COMMUNICATION.

His Honor Mayor Chapman submitted the following communication:

PORTLAND, Aug. 2, 1876.

To Honorable the Common Council:

I appoint W. S. Chapman, City Surveyor.

J. A. CHAPMAN.

Councilman Catlin moved that the communication be laid on the table until the next meeting; carried.

On motion the Council adjourned.

A cup of coffee or a lunch at Barnes' is just what you want.

W. L. ADAMS, M. D., A. M., LL. D., corner of First and Salmon streets, is curing the most inveterate chronic diseases of all kinds at a low price, by medicated, electric lightning cream baths, and by combining the German and French with the American improved practice, mixed with a little common sense. His treatment is, in the main, entirely original, and works almost miracles, as his numerous patients will attest. Is extraordinarily successful in treating female complaints.

Sore eyes speedily relieved. The worst form of piles cured, and the most malignant cancers eradicated root and branch without the use of the knife, or the money refunded.

HAIR RESTORED.

If any who are skeptical of the ability of Mrs. S. Lord to produce a crop of new hair in all stages of baldness will call or write to her at her rooms in National Bank building, Portland, she will refer them to several prominent Portland gentlemen who three months since placed themselves under her treatment and are now in possession of a crop of new fine hair which is rapidly increasing in strength and vigor. Itching of the scalp and falling hair checked readily. Preparations sent to all parts of Oregon and Washington.

One of the coolest spots in town is the "Fountain," where Peter Wilhelm holds forth. He keeps the best liquors and cigars, and Weinhardt's best beer. His billiard tables are excellent, and the "Virginius" pool table continues a favorite.

The demand for Mrs. Rohrer's New Remedy for the lungs is still increasing rapidly. On its merits alone this medicine in a short time has gained a popularity with the public that few other remedies can boast of. Its promptness and sure relief in all the various diseases of the throat and lungs, and its many astonishing cures in chronic cases of Asthma, Bronchitis, Dyspepsia, &c., have excited the wonder of the public; and yet with such magic power it is entirely harmless in its nature, soothing in effect, and so pleasant to the taste that children will cry for it. It is prepared by Mrs. E. Rohrer, Monmouth, Oregon. Sold by druggists generally.

A LETTER.

DR. WIGHTMAN—*Dear Sir*:—Since using your "Process" I have been entirely free from the Hemorrhoids or Piles, and with the exception of two or three times I have never felt any symptoms of them, *then it was entirely my own fault*. God knows I have had reason to feel thankful for the great good your VALUABLE REMEDY has been to me. Yours truly,

J. M. BACON, P. M.,
Oregon City.

The WIGHTMAN PROCESS will be sent to parties living at a distance, C. O. D., by Express. Rooms on Third street, between Washington and Alder. Letter enclosing stamp will be promptly answered. Postoffice box 247, Portland, Oregon. DR. C. F. WIGHTMAN.

CORNS AND BUNIONS.

Dr. Halpruner is now with the band connected with the Italian circus. He will pay attention to those desiring his services at points on the route.

THE PIONEERS' ACKNOWLEDGMENTS.

PORTLAND AS THE CITY OF THE PIONEERS.

BUTTEVILLE, July 27, 1876.

TO THE EDITOR OF THE OREGONIAN:

Having just seen in the *Democrat* of the 14th inst., published at Albany, the address of Hon. Wm. Strong, welcoming the Pioneers to the hospitalities of the City of Portland, on the occasion of the late Centennial celebration of our National Independence, with response by Hon. S. F. Chadwick on the part of the Pioneers, permit me to say, it is a source of true congratulation to the old Pioneers now scattered throughout Oregon, Washington and Idaho Territories, some of whom took part in felling the primeval forest, and assisted in laying the foundation of your now beautiful young city, to have been thus cordially greeted after thirty years have rolled away. The members of the Pioneer Association are thankful to the citizens of Portland, and the Honorable speakers above named, for having the desired opportunity of placing in their archival collection these addresses as enduring mementoes of the rare and patriotic occasion which called them forth.

Judge Strong, in concluding his kindly remarks, said: "Again I welcome you to our city, to your city, to a city which we hope is destined to increase in growth, with the growth of the State until it shall become a great city." It may not be considered inappropriate here to notice briefly some of the advantages upon which the growth of great cities have in the past, and must in the future depend. To build up a really great city which will endure the changes of time, there must be a union of the resources of agriculture, manufactures and commerce. These elements of future greatness Portland no doubt possesses in an eminent degree. A city founded on but one of these advantages may for a time be very prosperous, and yet be in instant danger of overthrow. As a signal example of this may be named the city of Palmyra, which was founded on the caravan trade over the desert, and when this trade was diverted, perished at once, leaving its fallen columns as monuments of the dead. The ocean always ministers to the growth of cities located like Portland, upon tide water. It furnishes the cheapest and most convenient means of transportation to the best markets of the world. Portland, with respect to her natural advantages of foreign and domestic commerce, in her location at the head of ship navigation on the Wallamet, finds in these respects a striking parallel in the great city of Philadelphia, built on the banks of the historic Delaware, and from whence was first proclaimed to the world the glad tidings that "the united colonies are, and of right ought to be free and independent States." The old pioneers who laid the foundation of Portland and have watched her growth with proud admiration from the day she was christened by Frank W. Pettygrove, cannot but feel a deep and abiding interest in her present and future prosperity.

Permit me to close with the assurance that the citizens of Portland, so ably represented by Judge Strong in his address of welcome, will ever be gratefully remembered by the pioneers of the former Territory of Oregon.

WILLARD H. REES,
Cor. Sec'y O. P. A.

THE TERRITORIES.

Grasshoppers are creating sad havoc with the crops in Malad.

The little town of Tumwater, near Olympia, is said to be one of the liveliest places on the Sound.

The great question at Silver is not who will be president, but when will the Golden Chariot pay off.

The "cattle on a thousand hills" scattered all over Idaho, never looked fatter and better than they do just now.

The Boise *Statesman* says: "The N & N Toll-a-graph line, built by the citizens of Boise City, is the deadest bilking machine ever inflicted upon any community."

It is whispered about that the Democracy of Washington Territory have settled their hopes upon Mr. O. F. Gerrish, a merchant in Port Townsend, as their prospective candidate for delegate to Congress.

Father Mesplie, chaplain of Fort Boise, is busily engaged writing a history of his life and experiences on this coast. The book will be in print this fall, and will be a valuable addition to the history of the Pacific coast.

The Indians have been in this vicinity in large numbers during the past fortnight. A few days ago they held a grand pow-wow at Flint, which was attended by remnants of the Shoshone, Snake, Piute and other tribes. They seem to be quite peaceably inclined, and have no disposition to make any trouble with any class of our citizens.

SCEPTICISM.—"Ma," inquired a Chicago boy of tender years, who was slowly riding home on a street car the other noon, "don't the Bible say that the Creator made all creeping things?"

"Yes, my son," replied the mother, with due solemnity.

The boy rode thoughtfully on a few rods, and then suddenly exclaimed, in doubting tones:

"Say, ma, I don't believe he made street cars!"

The driver overheard the remark and whipped up his horses into a little faster jog.

A DAY OF REST AND REFRESHMENT.—A stranger from New York, standing in the door of one of our most influential hotels, remarked recently (Sunday), as he saw after the third time a policeman with a prisoner in tow:

"It seems to me your people desecrate the Sabbath a great deal by drinking too much."

"It's no such thing," replied the clerk, rather angrily; "our people never get drunk except on Sunday.—*San Antonio, Tex., Herald.*

What can be Cured

Need not be endured, although what can't must be. Among the bodily ills susceptible of complete removal by that benign tonic and alterative, Hostetter's Stomach Bitters are general debility, malarial fevers, constipation, dyspepsia, liver disorder, and nervousness. Its remedial capabilities are, however, by no means limited to these maladies. Its properties as a blood depurent render it extremely serviceable in expelling the acrid impurities which produce those painful disorders, rheumatism and gout and its invigorating and mildly stimulating effect upon the kidneys and bladder constitute it a useful medicine for impelling those organs to a complete performance of their functions when they are weak and inactive. In fact there is scarcely any disease of which weakness is an accompaniment, in which this admirable medicine cannot be used with advantage.

Colds and Coughs, Sudden Changes of climate are sources of Pulmonary and Bronchial affections. Take at once "*Brown's Bronchial Troches*," let the Cold, Cough, or Irritation of the Throat be ever so slight.

SO PREVALENT AND SO FATAL HAS CONSUMPTION become, that it is now everywhere dreaded as the great scourge of humanity. And yet, in their formative stages, all Pulmonary Complaints may be readily relieved and controlled by resorting promptly to Dr. Jayne's Expectorant—a curative specially adapted to soothe and strengthen the Bronchial tubes, allay inflammation, and loosen and remove all obstructions. It is a certain remedy for Asthma, and also for Coughs and Colds.

The Stock Papers Pay their Respects to Mr. Jim Keene.

SAN FRANCISCO Aug 2—The *S F Report* and *Stock Exchange* pay their attention to day to the recent change of front of Keene and his followers on the stock list. The *Report* republishes the statements of Keene regarding the bonanza mines made last spring and in the [illegible] column prints his present views and contrasts the two in an editorial in which it attacks Keene [illegible] charging him with the recent depression in the market by which thousands have lost their all and concludes by saying he has made his millions perhaps by what he may consider a shrewd turn but the accumulated execration of half a city goes with them to sweeten his enjoyment of them. The ultimatum is alas that it should come so late that Keene has satisfied himself and deceived others. The *Exchange* pays its attentions more particularly to the *Chronicle* and *News Letter* for what it alleges to be their late efforts to break the market.

Keene Interviewed.

The *Chronicle* this morning prints a two column interview with James R Keene in which that great bear of bonanza admits in effect that his previously expressed opinion concerning the played out condition of those mines was all nonsense and the result of a want of understanding of the true condition of affairs that the California mine is just as good to day as it was a year ago as the ore developed since the report of experts last year has been sufficient to offset that which has been taken out; that Con Virginia he thought could pay dividends for a long time hence and that the recent depression was the result of inflation of values sure to be followed by corresponding depression. He also gives a very encouraging account of Mexican where he says a good body of ore is being developed. Keene speaks favorably of the prospects in Ophir and says Savage is all right. The whole force of the mine will be changed and the new pump will be in order by the 5th or 10th of next month.

The Smallpox Panic.

SAN FRANCISCO Aug 2—The scene at the health office this morning reminded an observer of the panic on California street when the Bank of California suspended, except in the composition of the attendant throng. Rooms devoted to the business of the office were packed with screaming children, tired and cross women, and impatient men. The crowd slopped over on to the sidewalk and street rendering access to the building difficult. The parallel might be continued further, as about noon the office suspended operation, the run on the establishment having exhausted the supply of virus on hand. Upon notice being given to that effect, the disappointed applicants after discussing the matter in groups for awhile gradually dispersed. The rush to-day exceeded all previous occasions. The United States government seems to have caught the infection of alarm, as the postmaster this morning addressed a communication to the health officer declining to deliver any more letters at the health office on account of exposing the carriers to the contagion. Seventeen cases and three deaths were reported yesterday and seven cases and three deaths this morning. There was a panic on a Bush street car this morning occasioned by the entrance of a woman broken out with a first-class case of smallpox on her way to obtain admittance to the pest house. The passengers with ready sympathy granted her exclusive use of the car.

A Quack Locked up.

Harmodis, the quack who reported a case of smallpox as scarlet fever, was to day sentenced to pay a fine of $500 or serve a term of 250 days in the county jail. Failing to furnish the required amount he was locked up.

The New House of Correction.

The committee of the board of supervisors having charge of the new house of correction held a meeting to day to take action concerning the administration of that institution but nothing was done. It is charged that the concern is being conducted on a most extravagant basis as regards the number of employes style of living, furnishing of apartments, etc while, as yet, no prisoners are confined there and the time of the officials is taken up with champagne parties and other like entertainments.

Reported Ill Treatment of a Chinaman.

It is reported that last night a Chinaman was discovered lying near Caton Railroad avenue, South San Francisco nearly dead with smallpox, and that while in this condition he was set upon by a pack of young hoodlums who amused themselves by dashing water over him from an adjacent pool. He lay there for several hours, and where he came from or who moved him nobody seemed to know.

A Dishonest Stock Broker Arrested.

A stock broker named Antone Dene was arrested last night on a charge of larceny and five charges of embezzlement were registered against him. This morning, in the police court his case was continued until to morrow morning. His victims are all Italians, and they allege that they entrusted him with their money to buy stock and he has appropriated it to his own use. The whole amount embezzled is about $8,000 upon which complaints have been made. Three other parties are victimized to the tune of about $3 500.

A Possible Nominee for Congress.

The *Post* this evening publishes interviews with a number of men prominent in business and political circles as to the probable Republican candidate for Congress from this district. The bulk of opinion seemed to favor the nomination of Horace Davis.

Billiard Tournament.

SAN FRANCISCO Aug 2—The billiard tournament was continued to night by a match between Garnier and Daly 600 points French game. Garnier won on the thirty fourth inning by 160 points. Best runs Garnier [illegible] Daly [illegible] Averages Garnier, 17[illegible] Daly 13[illegible]

Smallpox.

The board of health held a special meeting this evening, and in consideration of the increased prevalence of smallpox reappointed special vaccinating physicians one for each ward and as many more as circumstances may require about twenty in all.

Expedition to the Black Hills.

A movement is on foot here to organize an expedition to the Black Hills. About 600 discussed the matter but [illegible] a committee to hire a hall for future meetings accomplished nothing.

Smallpox in Stockton.

STOCKTON Aug 2—Twenty cases of smallpox are reported in this city to-day. A large proportion of these are of a very mild form. Every precaution has been taken and it is hoped that the spread of the disease is stopped. [illegible]

VALUABLE LANDS FOR SALE.

600,000 Acres in

EASTERN OREGON!

For Farming and Grazing Purposes.

THESE LANDS ARE SITUATED IN WASCO, Grant and Baker counties and are offered for sale in such sized tracts, not less than 160 acres as purchasers may desire. Here is afforded a most favorable opportunity to immigrants and settlers seeking homes and low priced land to acquire both on the most reasonable terms. These lands are excellent for farming and grazing. On most of the tracts no grubbing or other preparation of the land for plowing is requisite. A growth of nutricious grass covers the uplands affording the best of pasturage while in the valleys and bottom lands the grass can be mowed and made into hay. Living springs and streams water the lands in various directions. The uplands or rolling lands can be put into crops with the most satisfactory return. Fruit, particularly peaches, plums grapes, apples pears and cherries, as well as the smaller fruits can be grown in great abundance. The climate of Eastern Oregon is very healthful. Flourishing towns are located at convenient points for traffic; the mails are regularly conveyed throughout that section and a prosperous population is already established occupied in farming stock growing mining and various other pursuits.

Terms $1 25 per acre and upwards according to quality and quantity. Interest ten per cent on deferred payments.
